INGREDIENTS

Sugar, processed grain products, vegetable oil, animal protein products, salt, guar gum, potassium diglyceride, sodium diglyceride, soy lecithin, xantahn gum, artificial flavor and artificial coloring (FD&C Yellow 5&6). NO COPPER ADDED.

FEEDING DIRECTIONS

dac® SHOW CONTENDER CLEAN UP can be fed to Cattle, Goats, Sheep, and Swine intended for showing, as an aid to stimulate feed intake. Feed **dac® SHOW CONTENDER CLEAN UP** at the following rates:

For best results, mix 1 packet (1 lb.) of **dac® SHOW CONTENDER CLEAN UP** in 1/2 gallon (64 ounces) of water

For Show Cattle, Goats, Sheep, and Swine add 16 ounces of mixed liquid per feeding as a top-dress to normal feed. Show animals can be fed this volume of mixed liquid two times per day.

1 packet will make enough mixed product for 4 feedings. This will last one animal 2 days at 2 feedings per day.
